

NICE

(National Initiative for Cybersecurity Education)

K12 CYBERSECURITY CONFERENCE

Tuesday, December 5, 2017

Omni Nashville Hotel Nashville, Tennessee

10:40am -11:20pm

BALLROOM B

Day 2: Session Speaker:

Lemi-Ola Erinkitola

Spatial Thinking and
Cybersecurity Education in
Preschoolers and Early
Elementary Education

Join us where Lemi-Ola Erinkitola, founder of The Critical Thinking Child, will discuss opportunities for spatial thinking in cybersecurity education among early elementary students. Participants will explore effective teaching strategies that can be readily implemented in the classroom or at home to help preschoolers and early elementary students expand their spatial thinking and foster talent at an early age in cybersecurity. **Register:**

About the SPEAKER

Lemi-Ola Erinkitola is an author, award-winning educator and busy mom with a passion for empowering parents and their children with educational tools and resources.

As founder of The Critical Thinking Child, Erinkitola encourages parents to tap into their child's learning style and help them think critically in a modern world.

Her brain training boot camp program was featured on ABC News and teaches young children how to protect themselves against online predators.
